

THE PILOT VAC

AUTOMATIC IN-GROUND POOL VACUUM

Its efficient design allows the Pilot Vac to effortlessly clean a pool's deep areas, shallow areas and most pool side walls. This unique pool cleaner truly gets the job done!

PILOT FEATURES

- **45 feet of vacuum hose** to accommodate an average sized in-ground swimming pool.
- **Five hose weights** allows the Pilot to easily access deep swimming areas of most in-ground pools.
- **Durable round footpad** in a designer color, for positive movement inside of pool.
- **Buoyancy ring** allows the Pilot to maintain the correct angle for effective vacuuming.
- **Automatic flow control valve** offers flow control to match pump flow rate, ensuring superior cleaning.
- **Twin drive tubes** provides kinetic energy for total mobility.
- **Custom rub-bar** provides additional balance for the pool vacuum in deep water. This feature also allows the Pilot to pass by pool ladders or stairs which reduces the chance of the pool vacuum getting tangled or blocked during operation.
- **Swivel device with Delrin® washer** to reduce hose tangling and unnecessary friction.
- **Unique bumper design** allows for random-pattern cleaning coverage.
- **Universal skimmer fitting** allows the Pilot to adapt to most in-ground pool skimmers.
- **Easy to install.**
- **Operates with most pool filters.**
- **Five year warranty.**

THE PATRIOT VAC

The Patriot™—this economical, automatic pool vacuum is an easy, efficient and effortless way to keep pools sparkling clean. Designed to clean any coved flat bottom above-ground pools or pools with a deep swimming area.

PATRIOT™ FEATURES
